Waldorf, MD 20604

Dear Chris, as you know we had an extremely difficult resident's room with a strong smell of urine. We really thought it was a lost cause and planned on re-carpeting and padding the room. The 2 GPS-FC1-115V Plasma Generators that you installed in our Carrier wall mounted P-Tac units were absolutely amazing. We still can't believe it. Within 24 hours the odor was dramatically reduced and within 48 hours the odor was completely gone.

The Plasma Generators are absolutely amazing. We will definitely plan on purchasing some in our new fiscal year.

Thank you again.

Sincerely,

Christopher Jackson
